Identity

A marl and limestone terroir facing due south, with its head in the sun all day long, the Mambourg allows our Pinot Gris to reach exceptional levels of maturity, giving it richness and fullness.

Winemaking

Long fermentation in stainless steel vats followed by extended aging on fine lees. The wine is then bottled before waiting at least a year before being released onto the market.

A word from the winegrower ...

"Benefiting from optimal sunshine, our Pinot Gris reaches an exceptional maturity, giving it richness and fullness."

Tasting

Eye

Pronounced gold, straw reflections.

Nose

Smoky characteristic of the grape variety, yellow fruit with flesh. Opens up enormously on aeration to a wide range of yellow fruits.

Palate

Structured attack, slightly tannic. Aromas of very ripe yellow fruit and bergamot.
